

MSc Pharmaceutical Manufacturing, EMBA,
General Manager (CEO)

Carlos Pereira

Carlos Pereira (1968) was appointed General Manager / CEO of BioAtrium in August 2023.

Carlos has held leadership roles with several pharmaceutical companies in Operations and Supply Chain in Europe, United States, and Asia.

Prior to joining Bio Atrium Carlos was responsible for Global Operations at Advanced Accelerator Applications, a company producing injectable radiopharmaceuticals.

Carlos started his career in Spain in a predecessor company of Sanofi in Supply Chain, and then moved to the United States for three years as Head US Intercompany products. After that he was Site Head for a new Sanofi factory in Beijing for four years, and then moved to Switzerland to join Novartis. In 2010 he moved to Singapore as Site Head and General Manager of a strategic site manufacturing for the United States, Japan, and European countries. In 2016 he returned to Switzerland as Global Head Supply Chain Sandoz.

Carlos holds a Master in Pharmaceutical Manufacturing from Stevens IT and an Executive MBA from Rutgers, both in New Jersey.

Carlos is a Spanish citizen.
